Assignment 3

Task Analysis

Task Analysis 1 (Our System): Simple Fitness – Logging in Fitness Progress

Task Analysis for Task 1: Logging Daily Exercises

1. Logging in a Daily Exercise.
 - 1.1. Locate Exercise
 1. Locate and open the Exercise tab.
 2. Search for desired exercise via search bar or category (arms, leg, back, cardio etc.)
 - 1.2. Initiate desired exercise
 1. (Optional) Set a timer for app to notify when desired time spent exercising is fulfilled.
 2. Select “Start” to begin the exercise.
 - 1.3. Complete desired exercise.
 1. If a timer was set prior to initiating exercise, a notification of completion is sent when timer is completed.
 2. Otherwise, a manual “Done” button will need to be pressed.
 3. If the user wishes to do more exercises in a single day, repeat 1.1 & 1.2.
 - 1.4. Exercise is logged.
 1. (Optional) A prompt will appear where changes to exercise information can be made, if necessary.
 2. Otherwise, pressing “Log” button will populate and update information for the user.
 - 1.5 Viewing (and editing) already logged exercises.
 1. Locate and open “History” tab
 2. View previously done exercises.
 3. Press a specific day to make changes to exercises done on that day (erase, edit, add etc.) or to simply view a detailed page of what was done on that day.

Commented [BV1]: Let me know what you guys think of this format

Commented [JH2R1]: Much better

Commented [DW3R1]: I think this looks great!

Task Analysis 2: Student Registration Process

1. Log into the School Portal.

1.1. Schedule a meeting with an advisor.

1. Locate the number or email address.

2. Schedule the appointment.

1.2. Register for a degree.

1. Pick a degree and tell the advisor.

2. Review requirements for degree completion.

2. Register for Classes.

1.1. Select Class.

1. Pick classes that are required for a degree completion.

1.2. Select Sections for Selected Classes.

1. Select classes to fit personal schedule with a degree planner.

1.3. Repeat 1.1 to 1.2 until all classes are selected.

1. Review and do not allow any overlaps of classes.

2. Select up to 9-15 credit hours

1.4. Complete Registration Process.

1. Select checkout once desired classes are chosen.

1.5. Submit Payment for Selected Classes.

1. Once in the checkout pick desired payment option.

2. Submit order and review chosen classes.

Commented [GG4]: did the same format as Brian. Let me know what you think

Commented [DW5R4]: I Think this looks great! I read the whole thing and it makes sense to me!

Commented [BV6R4]: Looks solid to me!

Commented [JH7R4]: :D
